

# Projected Minnesota impact of Partnership and conventional long-term care insurance

**Total of \$120-\$154 million\* by 2030**

\*2005 dollars. Impact is for all long-term care insurance.  
Source: Minnesota Dept. of Human Services, Sept. 2006

## ■ Assumptions:

- Sales will grow steadily, but modestly, through 2030.
- State Medicaid eligibility and benefits will remain the same through 2030.
- Partnership coverage that's sold will be similar to current conventional LTC coverage.
- Persons who buy Partnership coverage will have income and assets similar to persons who currently buy LTC insurance.
